

# INDEX

## Clavier, Volumes I, II, III, and IV

In this issue, in place of Music Showcase, which usually occupies the last pages of *Clavier*, is a much-requested index of the articles that have appeared in the magazine since its inception. Hereafter a yearly index will appear in the last issue of each volume.

All articles appear in the alphabetical list of authors. In addition, there is a subject-matter index that includes a few significant letters and unsigned, staff-written news items. Except in the case of obituaries, which are listed alphabetically, articles in the subject-matter index are listed chronologically in the order of their appearance.
